Valley of Dry Bones

Ezekiel 37

God's people had been carried far away from their home. They were sad and scared they would never get back to Israel.

One day, God spoke to the prophet Ezekiel. In his mind, Ezekiel saw a big valley full of dry bones. God said, "Tell these bones to come back to life."

Ezekiel did as God said and, amazingly, the bones all shook and rattled and formed themselves into skeletons! Soon muscles and fat and skin covered the bones and the valley was filled with people. Finally, God breathed God's spirit into the people and they lived again.

Ezekiel opened his eyes, amazed.

God said, "Those bones are the dried up hopes of my people. Tell the people that I will bring their hope back to life and bring them home."
